

Quality On Tap!

Our Commitment  Our Profession

Date: 03-24-2022

Village of Garland

Water/Wastewater

Village water consumer;

The Village is required to inform its water consumers annually of 2 informational documents:

1. The 2022 Annual Water Quality Report
2. The pamphlet Protecting Your Family and Your Community

Annual Water Quality Report is a document that contains test results from previous years for different contaminants.

Protecting Your Family and Your Community pamphlet is part of an ongoing educational program to inform our water consumers of public health risks associated with cross connections and backflow into the village's water system.

You can request a copy of these documents from Garlands Village Clerk Salene Ulrich at 531-249-4830.

Or they are available online at:

Facebook Garland Maintenance Group: <https://www.facebook.com/groups/560405402427194>

Village of Garland web page: <https://villageofgarland.org/home>

Thank you
